

May 18, 2023

Dear all,

We are delighted in thinking that in exactly **one week** we will be together for **top scientific** and **social** interactions initiatives.

We take this chance to remind you **V-ITALy** is an UNCONVENTIONAL “**congress that starts before the meeting begins**”.

You can already find several lectures uploaded in the **on demand** open access digital library. They will serve as basis for **stimulating discussion** and for creation of a **dedicated publication** (<https://vwinfoundation.com>).

Everybody is invited to **take active part** by **submitting VITAL material** and by **actively engaging** before, during and after the meeting (<https://vwinfoundation.com/albarella-program/>).

It's also possible to **join online**, with simultaneous translation in **SPANISH** (<https://vwinfoundation.com/albarella-meeting-registration/>).

On the **social side**, we really hope you will perceive V-ITALy as a **VITAL moment of sharing** with old and new friends, almost like if you were going **visiting a friend** in her/his place.

In this sense, we remind you to **fill in the surveys** we previously sent to you about **your eventual active involvement** in sport and music activities.

**YOU DON'T HAVE TO BE GOOD IN THE SPORT OR MUSIC PRACTICE:
YOU JUST HAVE TO BE GOOD IN TEAMWORK ;)**

These initiatives are meant to stimulate good sharing, therefore even if you don't play a sport **you can still support your team(work)**. **If you don't play an instrument** or if you don't sing, **you can still clap your hands** with your friends.

Some (good & bad;) piano and **guitar players are already ready...and if you have some songs you'd like to sing** or listen to ...feel free to let us know: we will look for the related music sheet (just write to info@vwinfoundation.com).

Looking forward for welcoming you at **V-ITALy** for VITAL days of **Science** and **Social interaction**, we remain at your disposal

Ciao

Oscar, Sergio, Willy and all v-WIN team(work)
